DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Ishikawa et al. (US 6,244,900).

Regarding claims 1-5, Ishikawa et al. disclose a connector comprising:

a housing (11);

a cavity (12);

a resiliently deformable lock (18) includes a base (19b) have larger width than and a projection (21);

a notch (15);

a maneuverable portion (un-numbered, see Figure 5);

a reinforcement portion (un-numbered, the curved corner adjacent to the portion 19a, see Figure 5).

The applicant claims the lock being formed by a specific molding steps, and the unlocking step being performed by a jig. These limitations do not have a patentable weight.

The patentability of a product does not depend on its method of production. If the product in the product-by-process claim is the same as or obvious from a product of the prior art, the

claim is unpatentable even though the prior product was made by a different process." *In re Thorpe*, 777 F.2d 695, 698, 227 USPQ 964, 966 (Fed. Cir. 1985)
